The Daily Press.

HONGKONG OFFICE: 14, DES VŒUX ROAD, U.C.

LONDON OFFICE: 131, FLEET STREET, E.C.

HONGKONG, 27th JUNE, 1904.

The telegrams we publish to-day of the naval engagement at Port Arthur dispose of several erroneous notions which have settled in the public mind. In the first place it proves that the many attempts made by the Japanese fleet to "cork up" the harbour by sinking old merchant vessels at the entrance has failed in its purpose. The heroic efforts of the brave fellows who ventured upon those perilous enterprises deserved better success. It may be that for a time at least the entrance was, as Admiral Togo believed, closed to the passage of the big vessels of the Russian fleet, and though no word of any effort to clear the entrance has appeared in the newspapers, it is possible that some part of the obstruction has been removed during the Fleet's long period of inactivity. Whether the harbour ever actually was blocked has yet to be learnt, but as the Russian fleet of six battleships, five cruisers and fourteen destroyers were able to come out of the harbour, and all but one battleship able to return to the anchorage, though in a damaged condition, the notion that the ships sunk at the entrance make the passage

of big ships impossible must be abandoned. Another revelation is that the ships which were so badly damaged by Admiral Togo's fleet on the occasion of the first attack, had been repaired and made ready for action again. The six battleships referred to in the Japanese Admiral's telegram must be the *Pollara*, *Sevastopol*, *Peresviet*, *Pobieda*, *Retvisan*, and *Czarevitch*. The two latter were the most seriously damaged in the first engagement, and it was only a few days previous to the sortie that the repairs to these two ships were completed.

One of the noteworthy features of these naval fights has been the singularly small amount of damage which has been inflicted on the Japanese fleet. We observe, however, that the *Ostasiatische Lloyd* publishes a statement of the fighting strength of the Japanese fleet which represents that she has suffered during the course of the war a loss of 49 per cent. in battleships; that 63 per cent. of her armoured cruisers are in dock, partly with heavy damage; and her loss in protected cruisers is set down as 19 per cent. This statement obviously accepts as trustworthy the Russian reports of damage to the Japanese fleet. It represents that the battleship *Fuji* is in dock heavily damaged. The only news of this fine ship being damaged appears in the Russian official report of the *Hatsuse* disaster, where it is represented that the *Fuji* also struck a mine, but was not sunk. Our German contemporary's list represents that besides the *Hatsuse* the Japanese Fleet has suffered the loss of the battleships *Yashima* (12,500 tons) and the *Shishikima* (15,000 tons); while of the protected cruisers, Japan is stated to have lost besides the *Yoshino* two smaller vessels named the *Takachiho* and the *Akashi*. Of the armoured cruisers no fewer than five ships are named as being in dock partly with heavy damage. We very much doubt the accuracy of the list. We believe that if the Japanese had lost three battleships and three cruisers in the course of the war, they would not have attempted to conceal the fact. They gave to the world the news of the *Yoshino*, though it is not improbable that but for the publication of the official report the loss of this vessel by collision in a fog might have been hidden from the knowledge of the world to this day. The Japanese authorities have corrected some of the Russian rumours as they appeared, but if the strength of the Japanese fleet has only diminished by her admitted losses, then it will be so much the worse for her enemy if he essays to meet this alleged remnant of a once powerful fleet, and finds in the fighting line most of the warships which according to his information had been sunk or rendered *hors de combat*.

There were six cases of plague on Saturday's list of notifications, two of them being from the New Territory.

It is notified in the *Gazette* that His Majesty the King has not been advised to exercise his power in respect of the New Territories Land Court (Amendment) Ordinance, 1904.

The *N.C. Daily News* announces on good authority that Mr. F. N. Dressing has been appointed by the Chinese Telegraph authorities to be Chief Superintendent of the Chinese Telegraph Administration, with headquarters in the Shanghai Office, on the Bund.

The firm of Arnhold, Karberg & Co. are installing the electric light in the Legation Quarter at Peking. It is stated that the Diplomatic Corps have decided that the affairs of the entire Quarter shall in future be administered by one body in the form of a municipality.

The *N.C. Daily News* states authoritatively that the official enquiry held at Weihaiwei showed that Mr. Soper was accidentally washed overboard from his yacht during the voyage from Dulay; and that there was no reason for any suspicion of foul play in the matter.

Last week the new "Star" built by the Hongkong and Whampoa Dock Co., Ltd., started to run on the ferry service between Hongkong and Kowloon. The new vessel excels the others in her fittings, and she has triple-expansion engines instead of the compound engines of her predecessors. Her name is the *Morning Star*. The *Northern Star* being relieved, has had an overhauling.

The Peking correspondent of the *Shanghai Mercury* writes:—The burglary which recently occurred at Sir Robert Hart's has just come to light by the confession of a coolie who has been employed on the place for the past seven years. Suspicion had always pointed to some one of the servants owing to the adroitness with which the intruder had entered the house. The coolie made a voluntary confession and directed some members of the Customs to a well in which he told them he had thrown such things as were of no value to him. Everything was recovered in fairly good condition except the silver which the coolie had appropriated to his needs and the documents, which were considerably damaged by the water. The coolie was discharged and received no further punishment.

Orders of His Majesty the King in Council, under the provisions of section 84 (3) of the Merchant Shipping Act, 1894, providing for the remeasurement of French and Spanish ships in British ports, which come into force on the 1st of July, are published in the *Government Gazette*. The Order sets out that it has been made to appear to His present Majesty that the tonnage of French ships as measured by the rules concerning the measurement of tonnage of merchant ships of France materially differs from that which would be the tonnage of such ships if measured under the "Merchant Shipping Act, 1894," and His Majesty in Council therefore orders that notwithstanding the Order in Council dated the 5th day of May, 1873, any of the ships of France may for all or any of the purposes of the "Merchant Shipping Act, 1894," be re-measured in accordance with the said Act. And so with Spanish ships.

The *Yellow Dragon* (the monthly magazine of Queen's College) mentions that on May 2nd the number of admissions to the College since it was opened 42 years ago reached the figure of 10,000. The Editor concludes an article on the subject with these remarks:—"Sir William de Vaux, at the last Prize Distribution in the Central School in January, 1888, spoke to the following effect: 'The chief point I consider admirable about this school is its missionary work and purpose. The young men that complete their course of studies here are scattered over the vast empire of China and cannot fail to disseminate this school and that appreciation of British government impressed upon them by their residence in this British Colony.' His Excellency rightly grasped the situation, but I doubt that its full magnitude could have been realised by him. Say 9,000 boys have left this College and one-third are scattered on the mainland; then we have a small army of 3,000 unpaid missionaries spreading Western ideas, and it must not be forgotten that of these missionaries not a few have been martyrs in the cause of civilisation."

## THE TYPHOON.

The first news of a typhoon came on Thursday, when the U.S. Consul-General received a despatch from the Manila Observatory notifying the approach of a typhoon to the S.E. of Luzon. On Friday the Hongkong Observatory issued a notice saying that a typhoon approaches the east coast of Luzon, north-east of Manila, moving W.N.W., and on Saturday it was notified that the typhoon had entered the China Sea, the centre being west of Northern Luzon moving towards the W.N.W. The U.S. Consul on Saturday also received a telegram, dated Manila, 25th inst., 10.30 a.m., saying that the typhoon was close to the east coast of Luzon going northwards. Orders to hoist the red cone point downwards and the red drum, indicating that there was a typhoon to the S.E. of the Colony, were given at 10.45 a.m. Sampans and junks scurried away to Causeway Bay for shelter, leaving the harbour in a more-or-less deserted condition. The China and Manila s.s. *Zaito*, which left Hongkong on Saturday forenoon, anchored outside at Pootabehow, off Junk Island. She proceeded on her journey, however, at 7 p.m. This is the first time that the new code of typhoon signals has come into use. The China and Manila s.s. *Zaito* was to have left Manila on Saturday, but the date of her departure was postponed.

Yesterday the cone and drum were hoisted down and a drum was hoisted in their stead. This indicated that the typhoon was then to the East of the Colony. Unless the typhoon has changed its course it is very probable that it will pass clear.

## THE METROPOLE THEATRE.

A goodly crowd assembled at the Metropole Theatre on Saturday evening to witness the initial performance of a series of weekly entertainments to be given in the theatre attached to the Hotel.

The proceedings were opened by Arthur James, who has been seen in public here before under a different name, and he showed to advantage in some character songs. Walter Keene followed, singing in a very weak manner that sweet ballad "Sunny Tennessee." As a character impersonator Mr. Tom Morecomb quickly established himself as a favourite with the audience, his songs "The Society Idol" and "Next Door" being especially well received. Miss Gerlie Maide is another artiste who met with an ovation, and while her voice is perhaps too highly pitched, she amply compensated for this defect by some extremely clever dancing. She is undoubtedly one of the best dancers seen in this Colony for a long time. Mr. Jim Christie demonstrated to the satisfaction of everybody that he has little to learn in the way of ball-punching, and his offer of £5 to anyone who could keep the ball under control for a period of five minutes met with no response. Not the least interesting item on the varied programme was the ventriloquial entertainment of McCormick and McGinty, and Mr. McCormick is to be heartily commended upon his amusing and skilful manipulation of the marionettes. The victims of McGinty and Mr. Johnson never failed to evoke roars of laughter. As an encore Mr. McCormick concocted a ventriloquial whisky-and-soda so well that it made one feel quite thirsty. Owing to length of the programme the "Pericarpone" was omitted, and the evening was brought to a conclusion by a life-like representation of the Corbett-Jeffries fight by means of the Biograph.

Save that the stage management was a little crude it is certain that everybody present thoroughly enjoyed the show, an enjoyment that was contributed to in no small degree by the opportunities afforded of promenading and partaking of refreshment in the grounds during the intervals.

## BIRTHDAY HONOURS.

LONDON, 24th June.

Mr. W. H. Treacher, the British Resident at Selangor, Federated Malay States; Mr. J. N. Jordan, the Minister Resident and Consul-General in Corea; and Mr. R. E. Bredon, C.M.G., Deputy Inspector-General of the Imperial Maritime Customs of China, have received the honour of Knighthood.

[Reuters's telegrams mention beside the above that Mr. Alfred Harmsworth (principal proprietor of the *London Daily Mail* and other journals) has had a baronetcy conferred upon him. Companions of St. Michael and St. George include Mr. E. Spooner, of the Malay Railways; Mr. Edward Hillier, of the Hong ong and Shanghai Bank, for services in China; Mr. Paget, of the British Legation, Bangkok; and Capt. E. C. Trubridge, late Naval Attaché at Tokyo. Imperial Service Companions include Mr. Charles Ford, of Hongkong; and Mr. G. T. Hare, C.M.G., of the Malay States.]

## KING AND KAISER AT KIEL.

LONDON, 25th June.

A hearty reception has been given to King Edward and Kaiser Wilhelm at Kiel.

[A Reuters's telegram says the King left England on the 24th inst. to attend the Kiel regatta.]

## OBITUARY.

LONDON, 25th June.

Mr. Clement Scott, the well-known author, journalist and dramatic critic, is dead.

## THE UNITED STATES AND MOROCCO.

LONDON, 25th June.

Mr. Perdicaris and Mr. Varley have arrived at Tangiers.

[Mr. Perdicaris is an American subject, and Mr. Varley an Englishman. They were captured a month ago by a Moorish bandit named Raisuli, who held them for ransom. A British warship and several American ships were ordered to Tangiers to secure the release of the captives. The Sultan of Morocco appears to have been endeavouring to expedite the release of the captives by bargaining with the brigand. A Reuters's telegram of the 23rd inst. states that President Roosevelt directed the U.S. Consul at Tangiers to demand from the Moorish Government either Mr. Perdicaris, alive, or Raisuli, dead.]

[REUTERS'S SERVICE.]

## THE UNITED STATES ELECTION.

LONDON, 23rd June.

The Republican Convention has nominated President Roosevelt as their candidate for the next Presidency.

LONDON, 24th June.

The Republican Convention has nominated Mr. Fairbanks for the Vice-Presidency.

## BRITISH POLITICS.

LONDON, 24th June.

The Government Whips complain bitterly of the slackness of Unionist members and intimate that failing an improvement the Government must consider its position.

## THE SALVATION ARMY.

LONDON, 23rd June.

The King has received General Booth at Buckingham Palace. His Majesty is greatly interested in the work of the Salvation Army especially its work among the poor.

## FATAL ACCIDENT AT QUARRY BAY.

A fatal accident occurred at Mosses, Butterfield & Swire's shipyard between 11 a.m. on Saturday morning, resulting in one death and several cases of injury. It appears that some native labourers were engaged in hoisting broken stone of various sizes by means of a derrick-crane. As the bucket was being raised loaded with this material the racing wheel of the crane broke, and the consequent strain thrown upon the crank-pins of the bucket caused them to snap. The bucket capsized, and the contents fell upon some men at work below. One man was killed instantly, and two more seriously injured. The body of the man killed was removed to the mortuary attached to the shipyard, the injured being conveyed to the Alice Memorial Hospital. The man in charge of the crane, in trying to stop the racing wheel, was unfortunate enough to get one of his hands caught in the machinery. Several fingers will probably have to be amputated.

## THE WAR.

NEWCHWANG.

LONDON, 24th June.

Newchwang is being further fortified by the Russians.

## ANOTHER ATTACK ON PORT ARTHUR.

MORE DAMAGE TO RUSSIAN SHIPS.

KORE, 25th June.

The Russian squadron venturing out of the harbour of Port Arthur on the 23rd inst. were attacked by the Japanese Fleet.

A Russian battleship is believed to have been sunk, and other Russian vessels damaged.

Several Japanese destroyers were damaged slightly.

[JAPANESE OFFICIAL DESPATCH.]

Tokyo, 25th June, 2.30 p.m.

Admiral Togo reports that on receipt of a report from a picketship by wireless telegraphy off Port Arthur that at 11 a.m. on the 23rd instant the enemy's fleet emerged from the port, he advanced with the whole fleet except the vessels on special mission.

The enemy consisted of six battleships, five cruisers, and fourteen destroyers, which seemed to make an attempt to move southward, but at nightfall stayed outside the port.

That night the majority of our destroyers and torpedo-boats attacked the enemy's fleet outside the port.

At least one battleship of the *Peresviet* type appeared to have been sunk and one battleship of the *Sevastopol* type and one cruiser of the *Diana* type were seen being towed into the port the next morning apparently seriously damaged.

On our side the warship of the destroyer *Shirakumo* was damaged, three men being killed, and one surgeon and two men wounded. The torpedo-boat *Chidori* received one shot abaft her engine-room, but had no casualties. The torpedo-boats 64 and 66 were slightly damaged. No other damage was sustained.

[FROM OUR OWN CORRESPONDENT.]

## OPERATIONS ON LAND.

Tokyo, 25th June, 6.50 p.m.

Our Takushan army reports that a detachment at dawn on the 23rd instant surprised and routed one squadron of Russian cavalry 10 miles north-west of Santaokou on the Tashikiao road. It also occupied the heights north of Santaokou, expelling the enemy.

The enemy left 60 dead.

[REUTERS'S SERVICE.]

## "THE MOST IMPORTANT FACTOR."

LONDON, 23rd June.

Reuters's correspondent at the Russian headquarters at Liaoyang says that the situation in the North is now the most important factor. Two Japanese armies threaten momentarily to effect a junction, assisted by a force on the North shore of the Gulf of Liaotang.

## THE REPORTED CAPTURE OF LIAOYANG.

LONDON, 23rd June.

The capture of Liaoyang is denied in St. Petersburg.

## GENERAL KUROPATKIN'S INTENTIONS.

LONDON, 24th June.

The St. Petersburg War Office has received a telegram from General Kuropatkin indicating that he does not intend to seriously contest the Japanese advance to Kaiping, owing to the exposure of his flank to General Kuroki. He prefers to concentrate at Haicheng.

This decision appears to involve the evacuation of Newchwang and Yingkow.

[FROM THE "N.C. DAILY NEWS"]

## THE FATE OF THE "IDZUMI-MARU."

Tokyo, 19th June.

It is now learnt that the *Idzumi Maru* was sunk by the Russians on the 15th inst. before the *Mitsubishi Maru*.

A hundred and eight men were made prisoners. Twenty-two, including a corporal and a private, were released near Maizuru on the north-west coast of Japan and transferred to the sailing-vessel *Uho Maru*, in which they arrived at Maizuru yesterday.

The *Idzumi Maru* was towed to near Meiji yesterday.

## DRIFTING MINES.

Mr. J. Goodnow, U.S. Consul-General at Shanghai, gave out for publication the following telegram, received by him from the U.S. Consul-General at Chefoo:—

"Mr. Washburn (correspondent of the *Chicago Daily News*) reports that the *Flucon* passed at six o'clock this morning in 38 degrees 26 min. N. Lat., 121 degrees 10 min. E. Long., a large mine, apparently new, painted red, nickel-spiked top, directly in the course of vessels bound for Newchwang."

## DEATH OF MONSIGNOR GUIDI.

Telegraphic information was received yesterday by His Lordship Bishop Piazzali of the death of His Lordship Monsignor Guidi, the Papal delegate for the Philippines. Monsignor Guidi was in Hongkong recently on a holiday for the benefit of his health, and only returned to Manila two or three weeks ago, apparently much benefited by the change. The news of his sudden demise came as a surprise to the Roman Catholic clergy in Hongkong and Manila. The deceased prelate was only 51 years old, and his untimely death is deeply regretted by all who had the pleasure of his acquaintance.

## THE MACAO HOTEL.

INSTALLATION OF THE ELECTRIC LIGHT.

On Friday evening, Mr. W. Farmer, the proprietor of the Macao Hotel, entertained a large company of friends to dinner on the occasion of the installation of the electric light in the hotel. This is the first time that electric light has been introduced into Macao, and its introduction says much for the enterprise of Mr. Farmer and his business capacity. We learn that the contract for the electric lighting of Macao has been signed, the contractor being a Frenchman. When the scheme of lighting is completed, Macao will be even more tempting than it is at present for the jaded Hongkong worker, but while the electric light is being installed visitors will find all the comforts that electricity brings in the popular resort of which Mr. Farmer is the head. On Friday evening there were about eighty guests to do honour to the event. Among the invited guests were Mr. E. S. Wheeler, of Messrs. Dodwell & Co., in the chair, and among those present were Mr. Farmer, the Governor's A.D.C., C. A. Magalhães (H.E. the Governor Senior Montenegro was unfortunately unable to be present owing to sickness in his family), Major Commander and Lady Guedes, Dr. and Mrs. Gonçalves Pereira, Captain and Mrs. Dumas, E.A.; the officers of the gunboat *Dia*; the officers of the cruiser *Admiral*; Captain D. Garcia, R. I.; Captain J. M. Santos, R. I.; Captain R. M. Rosa, R. I.; Dr. Fortes, Lieut. and Mrs. Labato, R. I.; Mr. and Mrs. O. d'Oliveira, Mr. R. d'Almeida; Mr. Orssen, Commissioner of Customs; Mr. Ho Yung, Mr. A. Rodger, Mr. T. Skinner, Mr. E. A. Hankey, Mr. Allen, Vice-Consul for Britain; Mr. R. B. Moorhead, Assistant Commissioner of Customs; Mr. J. Deveria, I.M.C.; Mr. E. Girault, Lieut. Godriche, A.D.C.; Lieut. L. Marques, R. I.; Mrs. Moore; Captain McKenzie, of the s.s. *Kiang Yang*; Mr. and Mrs. S. Noronha, Mrs. L. Lopes, Mrs. C. Cabral, Dr. Barbosa de Lemos; Mr. J. Boardman, and Mr. J. B. Paterson, of the s.s. *Hangshan*; Mr. Grainger, Mr. Coulton, Mr. G. Hayes, of the Green Island Cement Co.; Mr. A. Roberts, Mrs. J. J. Watson, Mr. Ip Loy San, Mr. J. de Souza, P. Gutierrez, and Mr. J. Santos.

The menu was as follows:—  
Caviare on Toast. Stuffed Olives.  
SOUP.  
Turk.  
FISH.  
Boiled Garoupa, Parsley Sauce.  
ENTREES.  
Grilled Pigeon, Mushroom Sauce.  
Butter Chicken. Stewed Prawns, white sauce.  
Pate de Foie Gras in Jelly.  
Ice-d Asparagus, Mayonnaise sauce.  
ROAST.  
Roast Turkey and Sausages.  
Roast Saddle of Mutton. York Ham.  
CURED.  
Chicken a la Indienne.  
VEGETABLES.  
Boiled Potatoes. Green Peas.  
Baked Tomatoes. Parsnips.  
SWEETS.  
Plum Pudding. Pineapple Ice Cream.  
Champagne, Mout, and Chandon.

The military band played the following programme of music during dinner:—  
March "Imagination of Electric Light" Hamu.  
Overture "Eliase e Claudio" Mercadante.  
Valse "Fairy Visions" Coote.  
Selection "La Mascotte" Audran.  
Valse "Messenger of Love" Coote.  
Gavotte "First Primrose" Ellenberg.  
Selection "The Pirates of Penzance" A. Sullivan.  
Folk "Eric a Eric" Coote.

Thieves in Austria are looking blue. An Austrian chemist has invented a powder which dyes the skin a bright azure, and resists the action of soap. The more the victim washes, the bluer he gets. A certain manufacturer sprinkled his cash with this powder, and went home. Next morning eight crows were missing. The manufacturer called all his employees together, and requested them to wash their hands. The fingers of the thief turned blue, and the manufacturer proceeded to wash his hands of him. Many Austrian thieves are giving up the use of soap altogether.

## HONGKONG JOTTINGS.

I have heard recently of quite a small epidemic of robberies from houses in the Colony, and what is chiefly remarkable about them all is the paltriness of the booty. A demand seems to exist for watches—gold, silver and even gun metal watches and thieves have, it would seem, deliberately ignored articles of far greater value in the rooms they have entered. Though several of these so-called burglaries have been reported to the Police I have heard of no arrests having been made. According to the common tale these thieves invariably get up the water-pipe on to the verandahs, and, as people do not sleep with their bedroom doors fastened these hot nights, access to the house is easy. There is just a suspicion in some of the cases that the house-boys or house-cooks may know more about these larcenies than they profess, for the circumstances usually seem to point to intimate knowledge of the victim's habits.

While there is no system of registration for servants in force in Hongkong the "servant problem" is always likely to be a troublesome one. The system of procuring servants which generally obtains in the Colony is one which does not give the employer that confidence in the honesty of the servant that should exist. There are undoubtedly plenty of servants to be had here, but the No. 1 will tell you he knows of only one, and the probability is that the one he knows is the one from whom he can get the biggest squeeze. If the Government will not grant the prayer of the ladies of the Colony for a system of registration, would it not be worth the while of some European—man or woman—to start a Servants' Registry Office, say in partnership with a Chinese who would act as an inquiry agent? It is an enterprise that ought to succeed.

Bearing upon this servant question I came across this passage the other day in a book written by a globe-trotting young lady:—"I did not perceive any yearnings among these 'ladies' (European ladies) to enlighten the 'beastions' of China. . . . There seemed to me to be very little love lost between the 'Europeans' and the natives." Quite true: there is not a great amount of love lost between them. And the main reason is that favours evoke no gratitude. Let me cite a case in point. A European lady catches a "boy" young, trains him in household duties, and teaches him English. When he feels his feet, so to speak, he deserts without notice in order to secure higher wages elsewhere. Of course, if his whereabouts can be ascertained he can be prosecuted for leaving his employ without notice, but few Europeans are found to put themselves to the trouble and inconvenience of prosecuting. The instance I have quoted represents an experience which is fairly common. It supplies an answer to the globetrotter I have quoted, and at the same time I may point out that a boy who leaves his employ without notice would stand no chance of getting employment through an efficient registry office. Thus it is seen that such an office while it would be a great convenience to European householders, would be likely to exercise a distinctly beneficial influence over the general body of Chinese domestics.

Unlicensed hawkers have a little trick of taking their youngsters out with them when going their rounds, and should a policeman appear the hawker vanishes, leaving the child with the goods. The magistrates for some time took pity on the juvenile hawkers and only fined them 50 cents or so, but they now see through the dodge and impose fines of \$5 or \$10 days imprisonment on quite young children. If the parents pay the fines—and it is really astonishing how soon impudences Chinese find money to pay fines—well, the bigger the fine the better. But now that the police are up to the dodge, it ought not to be difficult for detectives to secure the presence of the parent—the real offender—in the dock. It is distinctly hard on the child that it should have to serve the term of imprisonment.

In a case at the Magistracy last week, in which the secretary of the Hongkong and Kowloon Wharf and Godown Co. was charged as representing the Company with failing to have certain houses at Praya East whitewashed, Mr. Looker objected to a Sanitary Board Inspector putting questions, which he said, should be put through the magistrate; otherwise it would be putting Sanitary Inspectors appearing, not for themselves, but for the Sanitary Board, on a par with counsel and solicitors. It would be added, not be allowed in the Supreme Court. That is true: nor would the chief of a police department be allowed to cross-examine in that Court. Had the magistrate allowed Mr. Looker's objection it would have formed the precedent for other changes of a like character in the practice of the Court. On the whole I think Mr. Keup wisely overruled the objection, but the Sanitary Board might well consider whether they should not instruct their clerk to appear for them as similar Boards do at home. Had the members of the Board been present in the Police Court while this particular case was in progress I am sure they would be convinced of the necessity for the change. I believe no parallel can be found in England for the practice of the Sanitary Board here in authorising some half a dozen inspectors to institute and conduct prosecutions.

An eyesore in Queen's Road Central is the matting sunshades protruding from above the windows of the school adjoining the Provost Prison. If the establishment cannot afford something more respectable the authorities would confer a favour on the City by doing without sunshades altogether. While on this subject, I might also mention the matchless sentry-box, just inside the gate of the barracks compound. It looks rather a mean-looking affair.

I am afraid natural history is not studied very profoundly in Hongkong, and therefore it is useless for me to set questions on the ways of the white ant. But isn't it strange that this destructive little insect should swarm into your gas globes in the summer, while in the winter they shun the light and burrow their way into your best furniture? I am told that a swarm of white ants bodes a rain-storm. I should be glad to be assured on the point. We need rain badly, and I should like to know how long a time usually elapses between a swarm of white ants and a fall of rain!

The Indian policeman is a fine-looking fellow, but who is his tailor? It is fortunate for him that the Chinese street *gamins* are not so caustic in his wit as the London boy of that ilk. I observed a couple of Sikh policemen yesterday walking together along the Queen's Road. One had on "high-water pants," while the trousers of the other were fashioned like the bellows of a concertina. The sight was too funny for words.

BANYAN.

## SUPREME COURT.

Saturday, 25th June.

IN SUMMARY JURISDICTION.

BEFORE HIS HONOUR T. SERCOMBE SMITH (PUNISH JUDGE).

OVEN DOORS.

The Robinson Piano Company sued the proprietor of the Café Weissmann for the cost of four oven doors and certain fixtures valued at \$100.

Mr. H. W. Looker, of Messrs. Deacon, Looker and Deacon, solicitors, said in his opening statement that the Hongkong and China Bakery Company sold a plot of ground at Wanchoi, on which their bakery stood, to the Robinson Piano Company, and before it was taken over the Bakery Company leased it for a month to the defendant. Inside of the premises was a good deal of machinery and apparatus for the making of bread. Some of this was purchased by defendant, who, however, distinctly refused to buy the ovens fixed in the walls of the godown at 140, Wanchoi Road. Inside of these were a number of firebricks forming part of the fixtures of the building. Subsequently four oven doors and a large number of the firebricks were taken away by Mr. Weissmann, through his servants, and when called upon to return them, or pay the plaintiffs \$100, he practically refused to do so. He was written to about it, and he replied that it was rather insolent suggesting he had taken things which did not belong to him.

Mr. Deacon Clark, of Messrs. Lane, Crawford & Co., liquidators of the Hongkong and China Bakery Co., and Mr. S. D. Hicks, assistant at the Robinson Piano Co., gave evidence in support of plaintiff's claim. Mr. F. X. d'Almeida Castro, solicitor, proceeded to argue defendant's case, pointing out that Mr. Weissmann had removed the doors and firebricks. Even if he had done so the premises were not the property of the plaintiff at the time the articles were alleged to have been removed.

The Judge said he was satisfied the things were removed by the act of the servants of defendant, and that they had no right to take them away. He adjourned the case in order that certain documents might be produced.

## POLICE COURT.

Saturday, 25th June.

BEFORE MR. H. H. J. GOMPERTZ (ACTING POLICE MAGISTRATE).

RETURNING FROM BANISHMENT.

A Chinaman, charged with returning from banishment, was sentenced to one year's imprisonment and six hours' stocks.

OPPIUM.

A wealthy Chinaman, charged with unlawful possession of opium, was brought up to the Police Station in a chair, and carried into Court by two constables. He said he was sick.

The Opium Farmer said he did not wish to press the charge. The Magistrate imposed a nominal fine of \$2.

CUTTING AND WOUNDING.

A carpenter was charged with having, with others, assaulted another carpenter, inflicting a nasty wound on the head. The man was sentenced to three weeks' hard labour.

CONSERVANCY CASE.

A conservancy contractor was called upon to answer six summonses for neglecting residences at the Peak. Inspector Reidie presented on behalf of the Board, and Mr. P. W. Goldring, solicitor, of Mr. John Hastings's office, appeared for the contractor.

The case was remanded.

## WEATHER REPORT.

The Hongkong Observatory yesterday issued the following report:—

On the 26th at 11.30 a.m. The barometer has risen in Mid China and in the neighbourhood of the Loochoos and has fallen in S. China and Formosa.

The typhoon is recurring and the centre is now near the entrance of the Basco Channel moving probably northward.

There is very bad weather in the Formosa Channel.

Forecast:—Fresh W. winds, fine.

The Pa'tentes-Macniven & Cameron, Limited deserve A NATIONAL MEMORIAL for their excellent inventions:—Dover Chronicle. THE WAVELEY PEN. THE PEACOCK PEN. THE OVA PEN. THE HAWK PEN. Sold at all Stationers. Waverley Works Edinburgh. 1402-2

## HONGKONG VOLUNTEER CORPS.

REPORT ON THE TRAINING SEASON 1903-1904.

Major-General Sir Villiers Hatton, the Officer Commanding the Troops, in forwarding Major Pritchard's report on the training of the Corps, says he was much pleased with the firing he saw carried out; also to know that some of the corps took part in the recent mobilisation of section II of the defence. He has information that the engine and light required will be here soon.

## STRENGTH OF THE CORPS.

Major Pritchard in his report says:—On the April 1st, 1903, the total strength of the corps was 274, but of this number, 24 (17 artillery, 4 engineer company, and 3 band) were written off during April as resigned, absent, and not likely to return to the colony, or for other reasons, thus leaving the total number to commence the year at 250.

The total strength of the corps on 31st March, 1904, is 230 (including Chinese orderly room clerk); of this total, 10 (8 artillery and 2 engineers) will shortly be written off, leaving the actual total to commence the season 1904-1905 at 220, the falling-off of 30 in addition to those written off in April each year is a follows:—

Artillery companies 28, engineer company 2; leaving totals as follows:—Staff 8, artillery companies 188, engineers 21, band 3.

I attribute the falling-off in the artillery units to the same cause as last year, namely, the heavy Garrison artillery work and distance to go to drill at the forts, which has now been overcome, and in the engineers to the long distance to go to the work and the fact that the shed promised at Kowloon has not yet been fitted up.

The question of headquarters also affects the numbers.

During the past season 1 member has died, 66 have resigned (25 in Colony and 38 on leaving the Colony), 15 have been struck off as absent without leave and for other causes. Thirty-eight new members have been enrolled.

## EQUIPMENT.

There has been no alteration in the equipment of the corps since last season; but the C. R. A. has kindly placed two additional 15-Pr. B. L. guns (making four altogether) at the temporary disposal of the corps.

One of these is kept at the Taikeo Sugar Works to enable the men there to drill with them without coming to the headquarters, and the remaining three are kept in the verandah outside the headquarters.

Accommodation under cover for these guns is badly wanted; at present a watchman has to be kept to look after the guns at night and they add greatly to the inconvenience so often reported on at the present headquarters.

It has been decided that the corps is to be armed with the new service rifle; the correspondence on this subject stated that they might be expected to be issued about November, 1904.

## DISCIPLINE, TRAINING, ETC.

The discipline of the corps has been exceedingly good throughout the season.

Drill with the heavy guns at Stonecutters' Island was carried out during the early part of the season, and drill with the 15-Pr. B. L. guns and maxims at headquarters all through the year.

Maxim practice was carried out frequently in camp, on January 9th, January 23rd (competition for Sir W. J. Gascoigne's shield) and February 16th.

15-Pr. B. L. gun practice was carried out on January 9th and on February 16th, 1904, with very good results.

His Excellency the General Officer Commanding was present on February 16th, 1904. On each occasion of gun practice the men were changed round continually so as to test their efficiency to the utmost and the barrel targets were sunk in each case by the ranging rounds before firing so that the greater part of the practice had to be carried out at small pieces of wreckage and the reports clearly show that the accuracy of shooting was excellent.

During the coming season it is proposed to fire some of the series at longer ranges.

Under the head of drills the figures are as follows:—

	No. 1 No. 2 Eng.	Staff.	Co.	Co.	Co.	Band.
Efficients with more than 30 drills.....	7	46	50	12	...	...
Efficients with less than 30 drills.....	44	22	4	3	...	...
Non-efficients.....	17	17	7	...	...	...
Total.....	7	107	89	23	3	...

Of the 11 non-efficients, 16 have been called upon to make good the loss to the corps funds, i.e. \$25 each, 7 have been excused owing to the nature of their employment, 12 are absent (with leave) from the colony, and 6 recruits have been unable to complete the necessary number of drills.

The number of non-efficients shows a distinct decrease on the number last year, and I am of opinion that, although the numbers have again fallen, the efficiency in proportion to the total is greater than in former years. I hope now that the heavy gun drills have been stopped that the decrease in numbers will be checked and every endeavour is being made to get more recruits to join.

Musketry was carried out during the camp of instruction, and as many members as possible were put through the course. The members of the Engineer company fired the full course laid down in the musketry regulations, 1903; the members of the artillery companies fired at 200 yards, 300 yards and 500 yards; the average was good, but according to regulations, the latter are not classified.

The officers of the corps have practised with revolvers on different occasions, with good results.

## CAMP OF INSTRUCTION.

The annual camp was held under canvas at Stonecutters' Island from October 23rd to November 2nd, 1903. The attendance was better than in the previous year, in spite of the fact that a typhoon kept men away for nearly 2 full days out of the 10. Stonecutters' West Battery was manned at night by the artillery unit, and the engineer company manned the search lights. The usual company, carbine and rifle drills, were carried out, and the artillery units devoted the greater part of the time to 15-Pr. B. L. and Maxim gun drill, in which a keen interest was taken. Practice was carried out with the Maxim guns on the range with good results, also class-firing by a number of men, but time did not permit of the whole corps completing the course. The engineer company in addition to musketry and infantry drills, carried out daily drills with the engines and search lights under the supervision of Royal Engineer instructors. Two accidents occurred during the period in camp which were attended to by Lieutenant Swan, the Medical Officer, and in both cases valuable first aid was given by the members of the ambulance class in camp. Next year it is proposed to arrange for one of the medical officers to remain in camp during the period.

The Officer Commanding Royal Artillery inspected the artillery units on October 31st. Drill was carried out with the 15-Pr. B. L. and Maxim guns, and the C. R. A. expressed himself pleased with the result.

The O.C.S.M. R.E., carried out an examination of the members of the engineer company on October 31st, and stated that their knowledge and progress was good.

The Officer Commanding the Troops inspected the corps on parade on Sunday, November 1st, and also made an inspection of the camp. He remarked on the steadiness of the men on parade and stated that he considered the camp was better laid out and more soldierly than in previous years.

## MISCELLANEOUS.

The annual inspection of the corps by His Excellency the General Officer Commanding was held on March 26th, 1904.

The absentees from the inspection are as under:—23 absent with leave out of the Colony, 16 absent with leave on special duties in this Colony, 10 absent on medical certificates, 11 absent without leave.

The competition for the musketry shield presented by Sir H. A. Blake, G.C.M.G., took place on May 2nd, 1903, at Tai Hang rifle range, and was again won by the left No. 1 company, H.K.V.A.

The competition for the shield presented by Sir W. J. Gascoigne, K.C.M.G., for Maxim gun practice, took place on January 23rd, 1904, and was won by the right half No. 2 company, H.K.V.A.

The corps took part in the King's Birthday parade in conjunction with the remainder of the garrison at the Happy Valley on November 11th, 1903.

An ambulance class was conducted by Captain F. O. Stedman, M.D. Nine members of the corps presented themselves for examination, of whom 8 qualified.

Confidential correspondence was carried on during the year with the Colonial Defence Committee on the subject of the organisation of the corps, and it was finally decided that the artillery portion of the corps should in future carry out movable armament and Maxim gun duties and not drill with the fixed armament in the forts.

This decision was communicated to the members of the corps on parade on February 16th, 1904. I hope that this decision may check the further decrease in the numbers.

In my report last year I mentioned that it had been sanctioned that a shed should be put up at Kowloon to contain an engine and search-light installation for special instruction of the volunteers.

On February 3rd, 1904, I received information that this building had been completed, but that the engine and light were required to complete the defences. I hope that these may soon be replaced; the engineer company has decreased in strength to 21 at the present time, and it would be advisable to endeavour to popularise this useful portion of the corps by enabling them to do their technical drills without proceeding in every case to the forts.

The question of suitable headquarters for the corps still remains unsettled. A Kitson light installation (2 humps) was approved and fitted up on the parade ground in December, 1903. This has proved a great convenience and enabled the gun drill, laying, etc., with 15-Pr. B. L. and Maxim guns to be carried out under better conditions than formerly.

## SERVICES.

Major A. Chapman took over the duties of Actg. Commandant during my absence on leave from June 3rd to August 19th, 1903, and has always afforded me valuable assistance in all matters concerning the welfare of the corps. The others officers of the corps have also, in almost every case, rendered excellent service and set a good example to the non-commissioned officers and men by their attendance at drills and their endeavours to promote the efficiency of the corps.

Sergeant-Major W. Higby, R.G.A., joined the staff at the commencement of the annual camp and from the date of taking over his duties has proved himself a zealous, hardworking non-commissioned officer, and has made himself popular with all ranks in the corps. First class Armourer Sergeant J. T. Hawks has fulfilled his duties in a very satisfactory manner. The duties of orderly room clerk have been performed by Young Shi-Chai, who has now been put on the permanent staff of the corps; he has done his work well, and during the period between September 27th and October 16th, whilst he was without the services of a Sergeant-Major, he greatly assisted in the heavy clerical work entailed by the arrangements for the camp.

## AN INDIAN WEDDING.

INTERESTING MAHOMEDAN CEREMONY AT HONGKONG.

Probably a Mahomedan wedding has never been described in a Hongkong newspaper before. On Saturday evening Mr. Shiek Curram Hallow, of the Hongkong Post Office, was married to Miss Anina Razack. The bridegroom's house in Upper Lascar Row was besieged by a curious crowd of Chinese—men, women and children, particularly children—who, figuratively speaking, were packed in the street like so many sardines. Upstairs the visitors were received by one of the two best men, Messrs. A. R. Patch Deen and A. K. Dul Basia, who, together with others, were actively engaged in dispensing light refreshments. The first ceremony, that of dressing the bridegroom, was performed by Mr. Hagee Ismail. The young man was helped into a gorgeous red satin jacket lined with blue satin. A red silk sash was put around his waist, a gold turban with streamers in front was placed on his head, and a sheathed dagger in his belt. Bouquets of flowers sprinkled with otto of roses were then distributed, and Mr. A. H. Ahmet afterwards, on behalf of the guests, presented a diamond scarf pin to Mr. Hallow. Mr. Omar Kitchell acknowledged the compliment on behalf of the bridegroom.

The most interesting part of the ceremony was the procession from the house of the bridegroom to that of the bride. A lantern procession walked in front, and the two best men and bridegroom followed mounted on horses. These shied at the sudden appearance of lighted torches; the crowd, too, found the smoke and sparks from the torches very unpleasant, and from one cause or the other the crowd was constantly surging backwards and forwards until something like a panic seemed to have been created. It was a very great relief to everyone when the animals ceased their crab-like movements and walked forward like civilised beasts. The procession wended its way along Upper Lascar Row, East Street and Lower Lascar Row, returning to Upper Lascar Row, for the bride's house was really only a few doors from the bridegroom's, by way of West Street. The ground floor of the bride's house was decorated with a profusion of bunting, Japanese lanterns, baskets of flowers and strings of sweet-smelling jasmine. The bridegroom, the two best men, the priest, and the bride's grandfather, acting as attorney for the bride, squatted down in the centre of the room, being faced by jars of flowers and sweetmeats, which were afterwards distributed. The room was fearfully hot, and the visitors all with hats on, and many with foot-gear off, almost tired themselves by industrious use of the fan. The priest proceeded with the ceremony in low chanting tones, taking his words, no doubt, from the Koran.

The bridegroom and others next went upstairs, demanding an entrance into the bride's chamber. In spite of repeated hammering at the door the bridegroom was kept outside for a considerable length of time, only being admitted on "paying." The bride was sitting on the bed with a red cloth completely covering her, and that is all the visitors saw of her. After refreshments the company dispersed. The newly-wedded young lady followed her spouse home in a chair.

## SHIPPING NOTES.

## STEAMER MOVEMENTS.

The I.G.M. steamer *Bayera*, which left here on 23rd May at 4 p.m., arrived at Genoa on Friday, the 24th inst., at 3 p.m.

The I.G.M. steamer *Roon*, which left here on the 22nd inst., at 2 p.m., arrived at Shanghai on the 25th inst., at 8 a.m.

The steamer *Sikh*, from New York, arrived at Manila on the 21st inst., and from there goes direct to Shanghai.

## WEATHER AT SEA.

The *Taiyuan*, from Manila, reports a fine passage. She experienced N.W.W. wind.

The *Laisyo*, from Saigon, reports light variable wind, smooth sea and clear throughout.

The *Kwangtshah*, from Shanghai, experienced light winds and foggy weather to Steep Island, thence to Turnabout light variable winds with rain. Next she encountered N.W. winds, and the barometer dropped somewhat. Off Breaker Point the reading, 29.55, was lowest, the wind then veering to the N.W., force "3." Thence to port light W.N.W. wind and fine.

The *Taming*, from Manila, experienced light N.W. winds and fine.

The *Tyr*, from Hongay, reports "fine."

## THE "HAIJUN."

The Douglas S.S. *Haijun*, the vessel chartered by *The Times*, returned to Hongkong on Saturday. The vessel looks very trim, and in a perfectly clean condition.

Though *The Times* has probably finished with the vessel, her charter with Messrs. Dodwell and Co. does not expire for another six weeks. It is, therefore, very hard to guess at the vessel's immediate movements. The wireless telegraph apparatus has been hauled down, and taken ashore. The wireless telegraph station at Weihaiwei will also be dismantled and the instruments sent to Hongkong. The *Haijun* left Japan on the 19th inst. Her return is due to the fact that both belligerents objected to her presence in the war zone.

J. M. BECK,

Superintendent.

Hongkong, 22nd June, 1904. [1543]

A. S. WATSON & CO., LIMITED.

ISSUE OF 30,000 NEW SHARES OF \$10 EACH.

PURSUANT to Resolution of the General

Managers of A. S. Watson & Co.,

Limited, hereby invite applications from the

Shareholders of the Company for the issue of

30,000 new shares of \$10 each at a Premium of

10 per cent. or \$11 a share.

Each Registered Shareholder on the 28th day

of September, 1904, applying for the New Issue

will be entitled to one share for every two shares

registered in his name. Shares not applied for

by those entitled to apply will be dealt with by

the General Managers in accordance with

Article 40 of the Company's Articles of

Association.

Applications for Shares in the New Issue will

be received by the Hongkong and Shanghai

Banking Corporation in Hongkong from the

28th September, 1904, to the 30th September,

1904, both days inclusive, and the whole amount

of \$11 per share will be payable on application.

The TRANSFER BOOKS of the Company will be

CLOSED from the 28th September,

1904, to the 30th October, 1904, both days

inclusive.

The present paid-up Capital of the Company is

\$600,000, divided into 60,000 shares of \$10

each, and the New Issue is required to increase

the Capital of the Company to \$900,000 divided

into 90,000 shares of \$10 each.

The whole of the premium received from the

New Issue will be placed to the Credit of the

Permanent Reserve Fund.

The New Issue will rank for Dividend for the

three months ending 31st December, 1904, pay-  
able in May, 1905.

Forms of application for the New Issue can be

obtained at the Company's Offices in Alexan-

dra Buildings or at the Hongkong and Shanghai

Banking Corporation in Hongkong, Shanghai, and London.

# THE LOSS OF H.M.S. "SPARROW-HAWK."

The N.C. Daily News of the 20th inst. con-  
tains the following details of this disaster:—  
H.M. torpedo-boat-destroyer *Fane* arrived  
here on Saturday afternoon with the news that  
the destroyer *Sparrowhawk* had struck a rock  
near the Suddles and had sunk. The *Fane*  
made the run from the Suddles to Shanghai in  
three hours, or at the rate of more than 25  
miles per hour. From information courteously  
furnished to our representative by the officers  
of the *Fane*, we learn that during Friday  
night the *Sparrowhawk* struck an uncharted  
rock to the north-east of Chesney Island. The  
chart shows a depth of 8 fathoms of water  
where the *Sparrowhawk* struck, but it is said  
that the rock is awash at low water, spring  
tides. H.M. battleship *Gloria* and the  
torpedo-boat-destroyer *Fane* stood by the  
*Sparrowhawk* and the officers and crews  
worked hard all night under the superintendence  
of the flag-captain, Captain Han. W. G.  
Stopford, with the result that the *Sparrowhawk*  
was towed off early on Saturday morning. She  
was brought alongside the *Gloria* and a collision  
mat fixed underneath her, covering the rent  
made by the rock, but at 4 a.m. she commenced  
to settle down, and at 7 a.m. sank in 8 fathoms  
of water. She struck a pinnacle rock, which  
pierced her plating just abaft the third funnel.  
Fortunately only the forward funnels were  
alight; had all her funnels been at work it is  
probable that the vessel would have been blown  
to pieces. As it was, no lives were lost and all  
her guns, torpedoes, loose gear and ammunition  
were saved. It is supposed that the engine  
room-bulkhead gave way after the *Sparrowhawk*  
was towed off and the vessel snapped between  
the third and fourth funnels.  
Chesney Island is off the north end of Raffles-  
one of the Parker group, bearing about 12 miles  
west from the South Saddle Island, and rocks  
and islets extend two miles further northward.  
It is worthy of note that in 1872 the *Tonbridge*  
was said to have struck a rock 24 miles north-  
ward of Chesney Island, but Captain Andersen  
of the C.I. revenue cruiser *Kendrick*, reported  
that such a rock did not exist. H.M.S. *Maggie*  
remained at anchor near the reported position  
of *Tonbridge* Rock during two spring tides, but  
no indication of a rock or shoal was seen.

# SHARE REPORT.

Messrs. Erich George & Co., in their Weekly  
Share List dated Saturday, 25th June, say:  
A fair miscellaneous business has been transac-  
ted during the week under review, the principal  
feature being a further phenomenal rise in  
China Sugar shares. The sterling demand  
rate on London is 9 15-16d, while the rates  
on Shanghai close at 7 1/2 for a T/T, and  
Tls. 7 1/2 to Tls. 7 3/4 for a three days' sight  
private bill. Barsilver in London is quoted  
25 1/2-16d, and Consols £90 1/4.

BANK SHARES.—Hongkong and Shanghai  
changed hands in moderate quantities at \$60,  
and have further fallen; the London rate, after  
dropping to 436 1/8, is quoted again at 437.  
Nationals have been done at 43 3/4, and the cer-  
tificates for 50 shares Nos. 48,326 to 48,375, stand-  
ing in the name of Ma Mei Koo, alias Ma Mei  
Suk of Shanghai has been lost, and that unless  
produced before the 24th proximo, a duplicate  
will be issued, the original being thereafter held  
as null and void.

MARINE INSURANCE SHARES.—Unions  
found buyers at \$540 and \$545, while Traders  
are in demand at \$62, after sales at that rate.  
North China have again been fixed at Tls. 624.  
Yankees are quoted \$130, and a small lot of  
Nationals have been done at 43 3/4, and the cer-  
tificates for 50 shares Nos. 48,326 to 48,375, stand-  
ing in the name of Ma Mei Koo, alias Ma Mei  
Suk of Shanghai has been lost, and that unless  
produced before the 24th proximo, a duplicate  
will be issued, the original being thereafter held  
as null and void.

FIRE INSURANCE SHARES.—Hongkongs have  
hardened, selling at \$310, at which rate more  
shares can be placed. Chinas are firm at \$37.  
SHIPPING SHARES.—Hongkong Canton and  
Macao Steamboats dropped to \$29 by the sale of  
a large line, but no more shares are obtainable  
at that figure; there are however a few shares  
on the market at \$29. Indo-Chinas have im-  
proved again, selling up to \$119 cash, but closing  
with sellers at that rate and buyers at \$118;  
time business has been done at erratic rates, the  
highest price paid for 31st December delivery  
being \$124, the Shanghai rate is Tls. 85 to Tls.  
86, while the London rate is unchanged. China  
and Manilas, as well as Dongkongs, are un-  
changed. Star Ferries (old) are impaired for at  
\$33, while the new issue sold and can be placed  
at \$24. Shell Transports, which advanced in  
London to 2 1/2, 0d., have received some little  
attention, selling up to 2 1/4, 0d., at which rate  
the market closes strong with buyers.

REFINERIES.—China Sugars experienced a  
sharp improvement: up to \$181 cash has been  
paid and the market closes strong; on time  
business has been done at erratic rates, the  
highest known so far being \$185 for 31st  
August, and \$187 for 31st December. Luzons  
are quite neglected.

MINING SHARES.—Punjoms are unchanged.  
Owing to the small attendance at the last Pun-  
jom meeting, the board has thought it expedient  
to issue a circular to shareholders, inviting  
their opinion on the following 2 reconstruction  
schemes of which Scheme A is favoured by the  
directors, and Scheme B by the preference  
shareholders. Scheme A: Capital of new  
Company, to be called the "North Punjom Min-  
ing Company, Limited" \$400,000, divided into  
100,000 shares of \$4 each, of which 60,000 shares  
to be awarded to the existing shareholders for  
present fully paid up scrip in the old Company.

\$1 to be considered as paid up, and the balance  
to be called as follows: \$1 per share on allotment,  
50 cents payable on 15th December 1904, 50  
cents on 15th June, 1905, leaving \$1 to be  
paid when and how required; 7,500 shares  
to be allotted to preference shareholders in the  
proportion of 1 fully paid up share of the value  
of \$4 in exchange for 4 shares of the existing  
preference shares; 32,500 shares to be  
offered to the public at par, but the  
issue to be under the control of the  
board, who may allot or otherwise dispose of  
the same to such persons on such terms and  
conditions and at such times as the board  
may think fit. Scheme B: Capital \$400,000 in  
32,500 ordinary shares of \$4 each to be offered  
in the same manner as in scheme A, viz. 60,000  
and 32,500 ordinary shares, and 30,000 pre-  
ferred shares of \$1 each fully paid up to be  
handed to the old preference shareholders in ex-  
change for old scrip.

Charterhouses are firmer and can be placed  
at \$50. Ranks have reached to \$62, sales  
at \$60. Wharves and Godowns.—Hong-  
kong and Whampoa Dock Company's Shares  
have changed hands and are wanted at \$213.  
Hongkong and Kowloon Wharf and Godown  
Company's Shares sold at \$108 and \$102,  
and have buyers at latter figure. New  
Amoy Docks are unchanged. Furnaces  
are quoted in Shanghai Tls. 155 to Tls.  
156; there are local buyers at the higher  
rate. Shanghai and Hongkong Wharves are  
quoted Tls. 150 sales in Shanghai.

LANDS, HOUSES, AND BUILDINGS.—Hong-  
kong Land Investment and Agency Company's  
shares sold at \$158 and \$158 1/2, and have buyers  
at the latter figure. Kowloon Lands are en-  
quired after at \$77. West Point Lands have been fixed  
at \$60 and are wanted. Hongkong Hotels are  
quiet with sellers at \$137. Humphreys' Estates  
and Finance Company's shares sold at \$122, at  
which figure a few shares are on offer; the new  
issue is also obtainable at \$42. Shanghai Lands  
have local buyers at Tls. 111.

# COTTON MILLS.—Unchanged and without

MISCELLANEOUS.—Green Island Cement  
fetched \$29 to \$29 1/2 and can be placed at latter  
rate. China Bories have been done at \$92 and \$94  
and have further buyers. A. S. Watsons are in  
good demand at \$18 1/2. Old Electricos sold at  
\$14, while the new ones fetched \$7 1/2 and \$7 1/4,  
closing with buyers. Tramways are wanted at  
\$280, while Steam Waterboats have advanced  
to \$173 buyers. Dairy Farms are in demand at  
\$17. Ordinary United Asbestos sold at \$103  
and have buyers. Tobaccos can be placed at \$10  
and have buyers. China Providents fetched \$92,  
and Watkins have been done at \$7 1/2, closing with a small lot  
at \$7 1/4. Wm. Perrells fetched \$101.  
Langkats have sellers at Tls. 302; the following  
telegraphic information, dated 16th instant,  
has been received from the manager in Langkat:  
"Daily aggregate output of crude petroleum  
62,000 gallons; crude petroleum in tanks  
at date 110,000 gallons; kerosine made  
since the date of the preceding half-monthly  
telegram 64,000 cases; kerosine shipped since  
70,000 cases; and kerosine in stock at refinery  
at date 76,000 cases."

Hongkong 25th July, 1903. 41

"Sanitas"

Purifying Agent

Indispensable in Hot Countries.

"Sanitas" Disinfecting Fluid  
is non-poisonous and non-staining, and for  
general or personal use is thoroughly effective.  
It completely disinfects the house in which  
it is used, and administered internally prevents  
Cholera, Typhoid Fever, Dysentery, etc.

"Sanitas" Disinfecting Powder  
is the best air purifier known, and a stronger  
antiseptic and disinfectant than carbolic acid,  
besides being pleasant and refreshing.

"Sanitas" Eucalyptus Soap  
is specially recommended by the medical  
faculty for use in hot climates, because of its  
fine disinfecting qualities and its fragrance.

Kingzett's Fumigating Candles  
supply the safest and most convenient means  
of sulphur fumigation. For the disinfection  
of infected places, bedding, clothing, etc.,  
they are both efficacious and economical.  
Destroy all insects.

superintended by Englishmen. Always  
equal and generally superior to that  
done anywhere else. Estimate given.

# ROYAL AERATED WATERS

# MANUFACTORY.

PRODUCE the Highest Class AERATED  
WATERS in the Far East on account  
of their High Class Machinery and also of the  
superior ingredients they use in the manufacture  
of their goods, and the cleanliness, &c., are all  
under strict supervision of Europeans only.

# REPORT OF AN EXPERT.

The representative of Messrs. BRATBY and  
HINCHLIFE, LIMITED, Aerated Water  
Engineers and Chemists, Manchester, visited our  
factory recently in the course of a tour amongst  
Eastern Aerated Water Makers, and was greatly  
surprised at the compactness of our factory and  
also the methodical way in which everything  
pertaining to the making of Aerated Waters  
was carried out. He also expressed himself  
strongly on the absolute cleanliness of our  
whole establishment, which he assured us was  
equal to any he had yet visited and superior to  
a great many. He also reported that the  
quality of our goods was of a first-class nature,  
and they showed that scrupulous care was  
exercised in the course of their manufacture.
